

THERMO DYNAMICS LTD.

SOLAR PUMP™ LIMITED WARRANTY

Thermo Dynamics Ltd. (TDL) warrants your new Solar Pump™ to be free from defects in material and workmanship for a period of ten years from the date of purchase. This warranty applies to Solar Pumps™ purchased from TDL or an authorized dealer. Solar Pump™ includes the motor and the pump.

If a defect in material or workmanship becomes evident within the limited time period of the warranty, TDL will repair or, at its option, replace the defective Solar Pump™. The costs of field inspection and labour are not covered by this warranty. The owner is responsible for the return of the defective Solar Pump™ to TDL, freight prepaid, and costs for labour to remove a defective, and install a new/repaired, Solar Pump™. Shipping of replacement and/or repaired Solar Pumps™ shall be freight collect. The Solar Pump™ must be packaged so as to prevent damage to the pump during shipment.

During the first five years of the ten year warranty period, TDL shall cover the costs of repair or replacement of your Solar Pump™, when the Solar Pump™ is returned to TDL, excluding the ineligible costs stated above.

During the last five years of the ten year warranty period, the cost to repair or replace shall be as outlined in the adjacent table. From year to year these costs may be adjusted proportionately based on changes in the retail price of a new Solar Pump™.

| year | cost to repair/replace pump only (\$CAD) | cost to repair/replace motor only (\$CAD) |
|------|--|---|
| 6 | 35 | 50 |
| 7 | 50 | 65 |
| 8 | 65 | 80 |
| 9 | 80 | 95 |
| 10 | 90 | 110 |

Exclusions:

TDL shall not be liable for consequential damages (such as damages to your home, loss of time or loss of use of the product), any incidental expenses resulting from any breach of any expressed or implied warranties, transportation charges nor field labour costs.

This warranty does not apply to Solar Pumps™ without an integral strainer.

This warranty is non transferable. It does not extend to anyone other than the first retail purchaser and applies only when the Solar Pump™ is in the original installation.

This warranty is voided by disassembly of the Solar Pump™ by other than TDL personnel at TDL's factory, or by damage to the pump body that renders the pump unrepairable.

This warranty does not apply to conditions resulting from:

1. a defect in a part not supplied by TDL.
2. failure to provide reasonable and necessary maintenance in accordance with the TDL instructions.
3. departure from TDL installation instructions.
4. misuse, abuse, negligence, accident, alteration, disassembly, corrosive fluid or atmosphere, floods, fire, or acts of God.
5. use of a fluid not specifically approved by TDL in the Solar Pump™.
6. failure to use the integral strainer supplied with the Solar Pump™.
7. exceeding the maximum current, pressure or temperature specified for your Solar Pump™.
8. use of inhibited glycol or acidic glycol in the Solar Pump™.
9. operation at inlet pressures below atmospheric pressure.

Unless otherwise explicitly agreed to in writing, it is understood that these are the only expressed warranties given by TDL. TDL does not authorize anyone to assume from them any other obligations or liability in connection with the Solar Pump™. If inspection by TDL does not disclose any defect covered by this warranty, the Solar Pump™ will be repaired or replaced with the permission, and at the expense of the customer, and TDL's regular charges will apply.

Service:

To obtain service for your Solar Pump™, notify the dealer who installed or sold the Solar Pump™. In notifying your dealer, provide identification of your Solar Pump™ (pump model and serial numbers, motor model and serial numbers), date of purchase (with proof) and the nature of the defect. Ship the Solar Pump™ complete with pump/motor/fittings in the assembled condition. Use adequate packaging to prevent damage to the pump during shipment. To obtain the location of the nearest authorized TDL service and/or distribution facility, call 1-902-468-1001 or write to: **Thermo Dynamics Ltd.**, 101 Frazee Avenue, Dartmouth, Nova Scotia, Canada, B3B-1Z4; or on the web at <http://www.thermo-dynamics.com>; email: solarinfo@thermo-dynamics.com
